ENVIRONMENTAL SOLUTIONS

Matthews Surefire 25

The Matthews Surefire Range of fixed hearth incinerators are world-renowned for offering an efficient and environmentally clean solution to the problems associated with the disposal of a variety of waste types.

The horizontal cylindrical design offers the strongest possible refractory construction offering years of maintenance free operation.

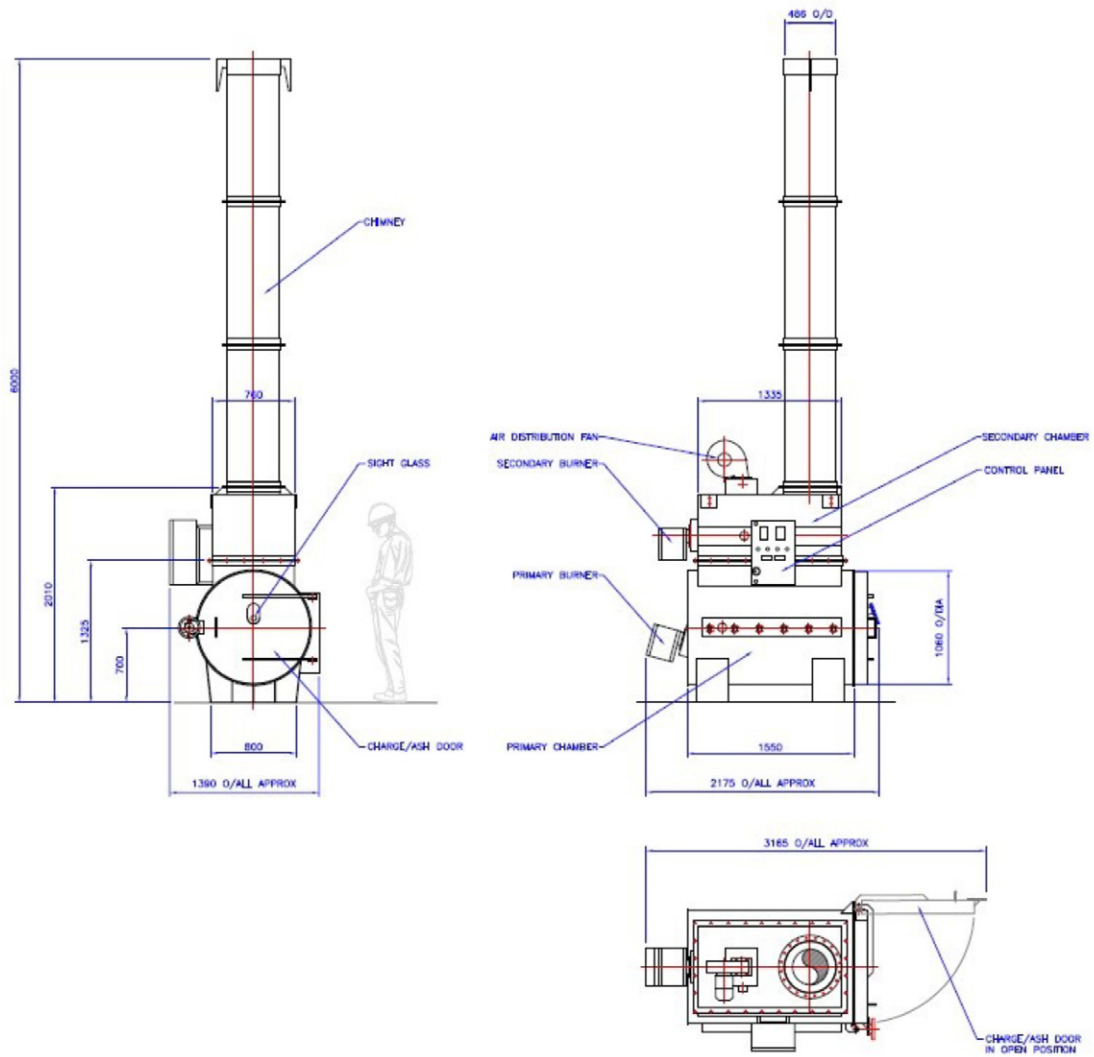

TYPICAL APPLICATIONS

- Remote communities
- Man camps
- Workshops
- Farms
- Military
- Hospitals

FEATURES

- Heavy steel shell with 1600°C refractory and high efficiency calcium silicate insulation
- Full-size, interlocked load/ash door
- High grade refractory lined chimney provides years of maintenance free operation

TECHNICAL SPECIFICATION

MODEL	CHAMBER VOLUME (M ³)	D (mm)	H (mm)	W (mm)	CHAMBER ID (mm)	CHAMBER LENGTH (mm)	WEIGHT (kg)
SF25	0.5	2270	2065	1600	800	1000	3,000

AVAILABLE OPTIONS

- Automatic loading
- Mobile - Skid mounted or containerised
- Secondary chamber
- Fuel storage and delivery system
- Energy recovery
- Electrical generator
- Wet scrubber
- Waste oil injection
